

Counselor Packing List

WHAT TO BRING TO CAMP

We discourage campers and counselors from buying any new clothing for camp. Your cloths are most likely to get dirty or cloths that you will be very active in. Please clearly label ALL possessions, even items such as flashlights, sleeping bags, boots, canteens, hats, etc. Things tend to go missing a lot between all the people in the bunk houses. A cap or hat is important, as the sun is hot here in the mountains. We do have one washer and dryer available to staff to use in their off time when it is not in use by nurses, they have first use of it for campers wetting the bed or washing their clothes, however there are other laundry facilities in town. All camp schedules include at least one overnight camp-out so sleeping bags are a necessity.

The number of items listed below are for a two week session and should be adjusted depending on the length you are staying. Do not bring items of any value such as expensive cameras, jewelry, electronic equipment, or activity equipment. Prude Ranch will provide all equipment necessary for activity classes.
